Applicant provides the following response to Office Action  
dated 03/24/87.

INITIAL REMARKS

In his Amendment B, Applicant inquired about a refund of  
the fees paid in connection with the now-obsolete Notice of  
Appeal and Appeal Brief. Examiner did not respond to that  
inquiry.

From subject Office Action, it was unclear to Applicant  
as to what Examiner required Applicant to do. To clarify,  
Applicant talked with Supervisory Examiner Salce on the  
telephone, and he explained to Applicant that the only choices  
available to Applicant in respect to instant application are  
the following:

- \* Abandonment with possible Continuation; and
- \* Re-amendment of the claims so as to re-establish the  
claims as claiming an invention within the classification of  
the initially elected invention, and then to argue the  
allowability of the re-amended claims.

Applicant elects to pursue the latter alternative.
